

Prayer Walk Sheet
(public elementary schools)

- Pray that the Lord would fill the school with administrators, teachers, workers that love Him and make decisions pleasing to Him.
- Ask the Lord to be a Mighty Fortress, Strong Shield, and a Merciful Covering over the entire school body protecting them from harm and any outside intruders.
- Pray that the Lord would keep the classrooms, playgrounds safe and protect the students/staff from harm.
- Pray that God would raise up Godly administrators and teachers who would not compromise and bow down to any curriculum that does not represent Godly standards.
- Pray that parents would take an interest in their children's schooling. Pray that parents would speak out against any curriculum that does not align with the Word of God.
- Help teachers maintain excellence, creativity, graciousness that they might encourage and respect each student, even the unlovable. Let them see each student as purposed by God.
- Give them a zeal to love, patience, wisdom discernment as they work with each student.
- May there be unity among the administrators and staff that they might be able to stand and not grow weary but remain determined to demonstrate excellence and consistency in their interaction with their students.
- Pray that this fall, after-school Good News Clubs will be able to be in our Syracuse City Schools and in schools in our outlying areas. (Personalize and name a school.)

STUDENTS

- Pray that students would come to know the depth and height of God's love and the truth of salvation.
- Pray that students will develop good character attributes.
- Pray a hedge of protection around all students who do know the Lord that they would find their identity in Him and not succumb to peer pressure. May they stand with boldness for their faith. Empower them from within to be righteous. Let them reflect the light of the Lord to their teachers and peers.
- Put a seal of protection around the minds of students and cause them to see any danger in false teaching and curriculum. May they be equipped to stand for truth. Guard them when on their lap tops that they would not be drawn into games, music, or websites that are not honoring to the Lord.
- May all students respect authority, learn to hate sin, exercise self-control, be grateful, demonstrate kindness and thoughtfulness. Cause them to hate bullying, to be quick to defend the weak, support the needy, love the down trodden and learn to encourage each other.
- May the staff and students know the peace, power and protective covering that only God can provide against all that the enemy may desire to attack ... may our students feel that school is a safe learning place where they can grow and excel!
